**BY THE COMMISSION:**

Lorraine Hitz-Bradley, Administrative Law Judge

On November 6, 2008, Vanco US, LLC ("Applicant") filed its Application ("Application") with the Indiana Utility Regulatory Commission ("Commission") for a Certificate of Territorial Authority ("CTA") to provide certain communications services within the State of Indiana, as captioned herein. The Commission published notice as required by law that an application for a CTA to provide communications services within the State of Indiana was filed with the Commission and, absent a timely challenge, the application may be granted without a hearing.

Based upon information contained in the Application and applicable law, the Commission makes the following findings:

1. **Commission Notice and Jurisdiction.** Due, legal and timely notice of the Application was given and published by the Commission in accordance with the Commission's Order in Cause No. 43009<sup>1</sup>. Applicant requests the issuance of a CTA pursuant to Ind. Code § 8-1-2-88 and, therefore, the Commission has jurisdiction over the Applicant and the subject of this Cause.

2. **Commission Discussion and Findings.** The Applicant filed an application for a CTA demonstrating its legal authority and describing its financial, technical and managerial ability to provide the proposed communications services in the service areas identified in the application. The Applicant also provided information indicating the type, means and location of service that the Applicant proposes to provide and represented that such proposed service would be in the public interest and in furtherance of the goals of full and fair competition.

The Application was filed with the Commission on November 6, 2008. Notice of the Application was posted to the Commission's web site, and no timely written request for an intervention or a hearing was made by any entity during the 30-day posting period. The Commission has not, on its own Motion, determined a need for a hearing in this Cause. Accordingly, no hearing is required in this Cause.

Therefore, based upon the information provided by the Applicant in its Application, the Commission finds that a Certificate of Territorial Authority for the specific communications

services proposed to be offered within the service areas identified in its Application should be issued to the Applicant, consistent with and subject to the following findings.

g. **Tariffs.** Filing of tariffs containing rates, charges, terms, and conditions for Basic Telecommunications Service (“BTS”), if offered by the Applicant. Pursuant to the Commission’s General Administrative Order 1998-2, Applicant should provide current hyperlinks to the tariffs that are subject to these findings, so that such links may be posted on the Commission’s website. We further find that, consistent with I.C. § 8-1-32.5-6(b)(3)(E)(ii) and other applicable law, Applicant should file tariffs containing rates, charges, terms and conditions for switched and special access services and/or appropriate concurrence or exception pages, if the offering of such services has been approved by the Commission.
